CLASSROOM SPOTLIGHT: Miss Hanson ~ 2nd Grade

The 2nd Graders at Boyd Elementary have been busy! We recently had an opportunity to go on a field trip to the Strategic Air Command and Aerospace Museum. Students had a great time on the bus and taking their learning outside the classroom. At the SAC museum, students were able to see many aircrafts up close and learn about the history of aviation. They were able to get to work creating, building and exploring different structures and scientific reactions. Students also built their own parachutes and did an experiment to see what allowed them to float longer. Our class also enjoyed eating lunch under one of the giant aircraft’s wings. It is always so wonderful to see students questioning and making connections from this experience. We are very grateful for the opportunity to have gone and look forward to further learning adventures!
