CLASSROOM SPOTLIGHT Mrs. Phillips ~ 2nd Grade

Hello from Mrs. Phillips' 2nd grade class! Second graders have had a busy start to the month of May. In math, we are learning about shapes and fractions. Second graders have also been working on Rocket Math to help with addition facts. They have been "flying" through their facts to reach their goals! In writing, we are composing opinion pieces. Students are learning that a good opinion piece must have reasons to support their opinion. We have learned that the more reasons in support of their opinion, the more likely the reader will agree. In science, we are conducting experiments on how matter can change. We will be applying heat and cold to different types of matter to see how they react. We are getting excited to end our time here at the Mills Building, and even more excited to get back to beautiful Boyd!

Go Beavers!

**IMPORTANT
ANNOUNCEMENT !**

**BOYD ELEMENTARY'S
LAST STUDENT DAY WILL BE
MAY 21, 2019.**

5th Grade Recognition

Date: Tuesday, May 21, 2019

Time: 10:00 a.m.

Where: Druid Hill Elementary

4020 N. 30 St.

In the gymnasium

End-of-Year Health Office Reminders

MEDICATIONS: If your child has any medication (s) at school (including inhalers and other emergency medications), they must be picked up by a parent (or designated adult) on the last day of school. Medications can NOT be sent home with any students. Please **plan now** to make arrangements for this. Any medications left at school after May 21 will be destroyed. This is an OPS Policy and while some years parents have been able to pick up medications later, **this year everything is being packed and moved, thus no medication can be transported and will be destroyed!**

Remember though, there are field trips the last week of school where medications may be needed, so please wait until May 21 to pick up all medications. Thank You!

PREPARING FOR NEXT SCHOOL YEAR:

Students entering Kindergarten are required by Nebraska Law to have a Physical Exam and a Vision Exam. Make those appointments now or before summer, as offices get very busy making summer appointments difficult to schedule. Save all forms in a safe place to turn in at the beginning of the school year.

Immunizations: Student entering Kindergarten must also be up-to-date with the required immunizations. Even if your child met the requirements for Pre-K, there are additional boosters needed for Kindergarten. Students who do not have these (or a medical or religious waiver) will not be allowed to attend school per Nebraska Law. Even if you cannot get your child in for his/her physical exam before school starts in the fall, the shots must be completed before your child can attend school.

Students (of any age) who will need to take medications at school next year must have new written orders from the Health Care Provider, as well as written parent permission EACH NEW SCHOOL YEAR. Please plan ahead so this can be ready when school starts.

Students who have severe food allergies will need a medical statement completed by the Health Care Provider for special meals. This is essential to make sure the student with allergies has meals that do not include items of concern.
