CLASSROOM SPOTLIGHT:

Miss Baumann ~ Speech

Greetings! I hope this note finds everyone enjoying the cooler weather! This month in speech and language therapy, students are focusing on fall content in many of our lessons. We are learning how to visualize or make a mental picture about our text to aid in comprehension. Students are really enjoying using language-rich texts to work toward their speech goals!

Many people are under the impression that speech-language pathologists just fix the /r/ sound, but that is not the case! In addition to articulation therapy, I work with students on language, fluency, and voice. Language involves understanding directions, vocabulary, asking and answering questions, grammar, sequencing events, and social skills just to name a few! Fluency is the rhythm and flow of speech. A disruption in that flow is commonly known as stuttering. Voice involves using appropriate volume, pitch, and quality of voice. If you have any questions, please contact me at 531-299-1140 or Ashley.Baumann@ops.org.
