CLASSROOM SPOTLIGHT:

Mrs. Cologne ~ Library/Computer Lab

We are very fortunate to have a wonderful space for the library and computer lab at the new and improved Boyd Elementary School. We have a great space to display books and enjoy reading both inside and out of doors.

Reading is one of the most important skills your child will learn in school. Like all skills, improvement comes with practice, and the Boyd Elementary School Library provides a wide variety of books for students to borrow for reading practice, information, and enjoyment.

Your child's class will visit the school library weekly to select books. You can help your student by reading to or with him/her and asking questions about the story. Encourage your child to spend time reading at home every day for at least 20 minutes. The benefits are great and the enjoyment is memorable.

In library classes we are learning how to find books using the electronic catalog, how to find books on the shelf using the call number, how to check out e-books, and how to build reading stamina.

Students have computer lab once in the 10-day cycle. We are learning about best sources of information such as Pebblego, Britannica Encyclopedia, and Facts4Me for Primary grades and Nebraska Access, Britannica Encyclopedia, and reliable websites such as bio.com for Intermediate. Please look for logins and passwords on a sheet outside the library at Open House on September 16th. Please email me if you have any questions about books, the library, databases, or computer use at Boyd. Helen.cologne@ops.org. I would love to hear from you!
